

NEW BRICK YARD FOR WICHITA

J. V. Wood to Start One With Large Capacity.

FORTY THOUSAND A DAY

Plant Will Represent \$10,000 Investment.

J. V. Wood, 612 South Emporia avenue, will establish a brick yard at the corner of Thirteenth street and Hillside avenue about May 1. The plant will have a capacity of 40,000 brick a day, will represent an investment of about \$10,000, and will employ about twenty men.

Mr. Wood has ordered a complete outfit of the best brick manufacturing machinery from the Chicago Brick Machine company and it is thought that the machinery will be shipped about April 25. On the forty-acre tract of land at the corner of Hillside avenue and Thirteenth street, which he will use as the yard, Mr. Wood will build a dry shed, the dimensions of which shall be 25 by 50 feet and a machine building, the dimensions of which shall be about 50 by 25 feet.

The clay on the land is believed by Mr. Wood to be suited for the burning of brick, as he has made many samples from it and sent them to the best brick experts in the country for inspection. They all pronounce the brick to be of good quality.

The first step in the manufacture of brick at the new yard will be to prepare the clay by crushing all the clods in it. The clay is then placed in a "stiff-mud machine," whence it comes in the shape of a long bar. It then passes into the automatic "cut-off" and is cut into brick. The damp brick are then placed in the dry shed and are thence taken to the kiln to be burned.

At first Mr. Wood will only manufacture building brick, but it is his intention to go into the manufacture of pressed brick as soon as possible.

In speaking of the new brick yard last night, Mr. Wood said:

"I believe the new brick yard will be a great market for the brick in this city. In fact, I expect to sell most of the product of the yard here for the present. While the brick at some other Kansas cities will have the advantage over me in regard to fuel, I will have the advantage in supplying the Wichita market in saving the cost of transportation."

ESTIMATE DAMAGE IN DOLLARS

Road Viewers of 17th Street Recommend to County Commissioners.

Three road viewers appointed by the county commissioners yesterday made their recommendations concerning the amount of damages to be allowed the property owners of Seventeenth street, who have not already granted the right of way for the opening of this street from Chicago street to Hillside avenue. It was recommended by them that the road be allowed \$75 damages. A. T. McPherson, 750 damages and H. W. Morgan, 50 damages. The county commissioners will now have these recommendations and then these property owners, if they object to the commissioners' decision, have an opportunity to appeal to the district court within thirty days after the commissioners' decision.

The road viewers are: J. O. Davidson of Valley Center, Geo. Terrell and O. D. Deaper, the latter two being of this city.

MR. STARK OF EL PASO

Newspaper Man of Border City Looking Over Wichita.

Mr. H. H. Stark, one of the proprietors of the El Paso Times, has been in the city several days, looking over the city, not with a view of locating, but gathering political information. He said yesterday (Tuesday) that El Paso has a great many things in common with Wichita, and that he was very much interested in the city. SUNSHINE FOR TOMORROW

Conditions of Weather Favor Showers Up Till Tonight.

The conditions of the atmosphere yesterday designated that there will be threatening weather until tonight, with a possibility of showers. There had fallen up to 4 o'clock last night 41 of an inch of rain since this city began. This is as much rain as has ever fallen in this city since the beginning of the year. The atmosphere yesterday was a little above normal and the wind was in the northeast where it will probably stay tonight.

HARMONY AND DISCORD

Probate Judge Unites and District Tribunal Puts Asunder.

Two divorces were granted yesterday by the probate judge. One was granted to Mrs. M. J. Baker and Miss Baker, who were married in 1900. The other was granted to Mrs. J. P. Hall and Miss Hall, who were married in 1901. The probate judge granted the divorces on the ground that the marriages were not consummated.

WORK RUSHING AT DOLD PLANT

Brick Work on Hog House Completed.

BEGIN ON BOX FACTORY

Workmen Excavating for Large Beef House.

The man who first said the new Dold packing house was a hummer is entitled to go to the head of the class. People can now begin to see that prophecy fulfilled.

There is great activity now about the new Dold plant. Fred Dold was out yesterday superintending the unloading of the big thirty-ton dryer from the cars. It will be put in place and the brickwork will be laid. The brickwork on the hog house will be completed today and tomorrow the bricklayers will be transferred to the box factory, the heavy foundations of which are ready for the walls. The box factory will be rushed to an early completion, as the material is already on the ground.

James Burton, with thirty teams, will today commence the excavations for the big beef house. The heavy stone for the foundations is being delivered and just as soon as the proper foundations are made the foundation walls will be put in. It is the intention of the Dold people to rush the beef plant, because they want to commence killing cattle as soon as possible. They will have a beef house modern and up-to-date in every respect.

Workmen have commenced to build the docks around the new packing building and from now on the work will show and people will have the satisfaction of seeing in this city one of the greatest packing plants in the west. Every one of the immense buildings are of stone and brick, as nearly fire-proof as they can be made.

The very prospect of the great Dold plant soon being ready for operation is putting new life into the whole packing house section of the city. There are new houses going up on every side. The new railroad office is getting ready for the increased business and the building for the new state bank is already nearing completion at Chicago street and the new hotel in that section is certainly one of the signs of a great forward movement.
